Effect of power reforms on commercial losses

105. DR. T. SUBBARAMI REDDY:
SHRIMATI JAMANADEVI BARUPAL:

Will the Minister of POWER be pleased to state:

(a) whether power reforms in the country have finally began to yield results, as power utilities in 11 States including West Bengal, Assam,

Gujarat and Maharashtra have managed to reduce commercial losses thereby saving more than Rs. 4,000 Crores;

(b) whether the Southern States of Andhra Pradesh, Kerala and Karnataka have effected the highest reduction in losses in revenue terms;

(c) what is the total commercial losses reduced by these States;

(d) whether these States have now completed removed the shortage of power;

(e) in how many States still power shortage is there; and

(f) what are the steps Government proposes to take to improve the power position in those States?

THE MINISTER OF POWER (SHRI P.M. SAYEED): (a) The trend of increasing commercial losses of Power Utilities has been arrested after 2001-02. The commercial losses (without subsidy) in State Electricity Boards had increased from Rs. 4,560 Crores during 1992-93 to Rs. 25,259 Crores during 2000-01. According to data compiled by Power Finance Corporation, the losses of Utilities have reduced from Rs. 27,068 Crores in 2001-02 to Rs. 20,623 Crores in 2003-04.

(b) and (c) The details of commercial losses in various States is given in the Statement (See below).

(d) The States of Andhra Pradesh, Kerala and Karnataka were deficit in meeting the power (energy requirement, MU) in the period from April, 2005 to October, 2005.

(e) Thirty one States/UTs were in deficit in meeting the power demand in the period from April, 2005 to October, 2005.

(f) The following major initiative have been taken by the Government of India to improve the power situation in the country;

(i) A capacity addition of 41,110 MW has been targeted for Tenth Five Year Plan consisting of 22,832 MW in Central Sector, 11,157 in State Sector and 7,121 MW in Private Sector with the component of hydro, thermal and nuclear being 14,393 MW, 25,417 MW and 1,300 MW respectively.

(ii) Maximization of generation and increase in plant load factor (PLF) of thermal power stations.

(iii) Early stabilization of newly commissioned units.

(iv) Exploitation of hydro potential at a faster pace.

(v) Renovation, modernization and life extension of old and inefficient generating units with interest subsidy on loans by the Power Finance Corporation.

(vi) Tapping of surplus power from captive power plants.

(vii) Enhancement of inter-State and inter-regional power by strengthening of inter-regional transmission links eventually leading to formation of National Grid.

(viii) Strengthening/augmentation of sub-transmission and distribution system.

Statement

State-wise Details of Commercial Profit/Loss of Power Utilities

(Rs. in Crore)
